Abstract (en)

[origin: WO2011047940A2] The invention relates to the use of a cosmetic product containing at least one polyamide in a cosmetic carrier, said polyamide being a reaction product of at least one dimerised fatty acid and at least one diamino compound, for fixing a hairstyle. The invention also relates to a corresponding hair treatment method, and to cosmetic products containing at least one reaction product of at least one dimerised fatty acid and at least one diamino compound, and at least one foaming agent.
