Abstract (en)

[origin: WO2011047941A2] The invention relates to a cosmetic product containing, in a cosmetic carrier, at least one polyamide that is liquid at 20°C and is a reaction product of at least one dimerised fatty acid and at least one diamino compound. Said product is suitable for controlling unmanageable and frizzy hair. The polyamides provide the cosmetic product with hair-fixing properties, as well as their antifrizz behaviour.
