Abstract (en)
[origin: EP2492852A1] A method is provided for a mobile device to display information associated with a digital diary. The method comprises the mobile device initiating a search of a plurality of digital diaries for at least one digital diary containing information that indicates that an owner of the at least one digital diary currently is or previously has been present in the current location of the mobile device, and the mobile device displaying information associated with the at least one digital diary.
