Abstract (en)
[origin: EP2497858A2] The system (1) has two rails (2), where each of the rails include a guide groove (2.3) having a dewatering recess (2.2). A dewatering channel (3) is provided transverse to the rails and in a region of the dewatering recess, and a recess is provided in the wall of the dewatering channel for each rail. A contour of the recess is partially arranged corresponding to a negative region of an inner contour (2.1) of the rails, and an elastic material is provided between the rails and the wall of the dewatering channel. An electrical insulation part (4) is provided on the inner contour.
