Abstract (en)

[origin: EP2497881A2] The domestic appliance has appliance door (1) comprising door handle (3) with handle (7) connected over handle support (5). The handle has elongated profile portion with a non-circular cross-sectional profile provided in longitudinal direction of extension. The constant cross-sectional profile in sections at rotational angular position in longitudinal direction of extension is varied. An independent claim is included for method for manufacturing household appliance.
