Abstract (en)
[origin: EP2500469A2] The intermediate work vehicle (7) has a work train (1) for developing or reconstructing a railway line consisting of a base structure and rails. A material from a roof conveyor (6) of a work vehicle (2) is placed into the container of the same work vehicle. The material from the container of a work vehicle is superimposed on the roof conveyor of the same work vehicle and is placed from the roof conveyor of the work vehicle into the container of the other work vehicle.
