Abstract (en)
[origin: EP2500496A2] The assembly (1) has a movable plate (11) which is arranged in a closed state in a first plane and in an opened state in a second plane. The surface side of movable plate is attached with surface side of fixed plate (13). The movable plate is guided along the continuous curve line in respective directions parallel to fixed plate so that helix shaped curve is formed. The parallelogram guides (5,5') are supported over the profile (2) in which groove (27,27') and curved path portions are provided. The parallelogram guides are provided with pins and sliding block.
