Abstract (en)

[origin: EP2500501A2] The frame connecting element comprises an insulation layer (14), a connecting unit (16) and a composite panel with two parallel plastic plates (12a,12b) that are arranged at a distance. The connecting unit is an assembly element of one kind for forming a snap action connection with an assembly element of other kind. An independent claim is also included for a frame arrangement with a sectional strip.
