Abstract (en)  
[origin: WO2011058593A1] The present invention is directed to a non-returnable gauge box comprising two panels (A) of insulating material, opposed to each other inclusive of the first uniting pieces (coupling means) to unite with the uniting distance boxes; in one gauge box, the means of distance (Z, A - H) includes a cavity that extends from one end to the other of these, along said predetermined length allows for breathability of the finished structure.
