Abstract (en)
[origin: WO2011064161A1] The invention relates to a clothes dryer (1) comprising a removable condensate collector (108, 208) comprising a condensate inlet (110, 210) and a condensate outlet (131), wherein the condensate collector (108, 208) comprises a condensate filter (109, 209) having at least one screen (134, 234) fluidly disposed between the condensate inlet (110, 210) and the condensate outlet (131) at a distance from the condensate inlet (110, 210). The condensate filter (109, 209) is thereby removable from the condensate collector (108, 208) and can be locked onto the condensate collector (108, 208).
