Abstract (en)
[origin: EP2506670A2] The household appliance has induction heating apparatus (12) comprising induction heating units (20,22,24,26) to which frequency switching units (30,32) are connected through switching units (62,64). A control unit (34) is provided for operating the induction heating units in two different modes. The resistors (80,81) are connected with induction heating units respectively. An independent claim is included for method for operating induction heating apparatus.
