Abstract (en)

[origin: WO2011071481A1] An eating utensil such as a disposable plastic fork, spoon, knife, or combination thereof, is combined with at least one oral hygienic device such as a toothpick, interdental pick, brush, tongue cleaner and/or a dental flosser for persona] use after eating in a location where oral hygienic facilities may not be otherwise available, in some embodiments the oral hygienic device may be permanently attached to the eating utensil, which can serve as a handle for using the oral hygienic device. In other embodiments the oral hygienic device may be displaced in a snap-off or bend-away manner at score lines to expose the oral hygienic device for use, either still attached to the utensil or removed for separate use, optionally configured with a thumb-finger grip tab.
