Abstract (en)

[origin: WO2011070238A1] The object of the invention is a suspension arrangement of an elevator car, which elevator car (1) is fitted to travel moved in an elevator hoistway by a traction sheave on essentially vertical guide rails (2) supported by elevator ropes (3), and in connection with which elevator car (1) is a plurality of diverting pulleys (4-7, 10, 11). The diverting pulleys (4, 7, 10) that support the elevator car (1) are disposed on the sides of the elevator car (1), essentially on the bottom edge of the elevator car (1).
