Abstract (en)
[origin: WO2011070009A1] The invention relates to an installation switching device (10) having a housing (26), having a screwless terminal connection (11), having a clamp spring (12) comprising two adjacent clamping legs (13, 14), and having a terminal cover part (15) pivotally connected to the housing (26). The clamping legs (13, 14) are separated by a slit (18), and a separator plate (19) is coupled to the terminal cover part (15) coupled to the housing (26), the exposed end thereof being fed into the slit (18) between the two clamping legs (13, 14).
