Abstract (en)
[origin: WO2011073141A1] The invention relates to flame-protected polymer foams comprising at least one halogenated polymer, for example bromated polystyrol or styrol-butadiene-block copolymer, as a flame protection agent, having a bromine content in the range of 40 to 80 wt%, or tetrabromobisphenol-A compounds (TBBPA), to a method for the production thereof, and to flame-protected expandable styrol polymers.
