Abstract (en)  
[origin: WO2011079991A2] The invention relates to a plug connection (1) between at least one cable connector (2), in particular a cable harness connector, and a terminal housing (3) comprising an electrical plug connection. At the terminal housing (3), the electrical plug connection has at least one socket (4) for inserting the cable connector (2). According to the invention, in addition to the electrical plug connection, a non-electrical plug connection is provided between the at least one cable connector (2) and the terminal housing (3).
