Abstract (en)  
[origin: WO2011075754A1] The invention relates to a spark plug (1), comprising a center electrode (2) and a ground electrode (4), wherein the center electrode (2) is arranged relative to the ground electrode (4) in such a way that the spark gap (s) extends between the ground electrode (4) and the center electrode (2), wherein the spark gap (s) is surrounded by a wall (16), wherein the wall (16) has a recess (22) or opening (20), which is designed in such a way that a feeler gauge (32) can be inserted between the center electrode (2) and the ground electrode (4).
