Abstract (en)

[origin: EP2517979A1] The packaging film has a multilayer film (1) which is formed and closed by a sealing seam (2). A dispensing opening (3) is provided for packaged product and a suspension (4) has a group of foil strip and loop. The multilayer film made of foil laminate has a heat-sealable inner film on the packaging side, and an outer side package forming outer film. The film laminate in the area of suspension has a portion at which the outer film and inner film are not connected. The outer film is provided in the section with separating cuts (10) that limit the usable of a suspension loop (5).
