Abstract (en)

[origin: EP2518007A1] The industrial truck (1), has a driving part (2) and a load part (3), which is provided with a load retaining unit (4) that is lifted and lowered with respect to the driving part. The industrial truck is provided at the load-distant region of the driving part with a docking unit. The docking unit is provided for retaining an additional counterweight in operation of the industrial truck. The docking unit is formed by a detachable form-fit connection unit. The detachable form-fit connection unit is formed by a hook connection.
