Abstract (en)
[origin: EP2518387A1] The table lamp (1) has a particularly rectangular flat housing (2) for receiving multiple lamps that are located in a plane, where an indirect lighting element (6) is pivotally connected with the upper end area of a support part (4). The light emission surface (7) of the indirect lighting element is provided with a direct lighting surface (3) and includes an adjustable obtuse angle. The indirect lighting element is equipped with high power lamps, particularly high power-light emitting diode and is provided with a cooling unit.
