Abstract (en)

[origin: WO2011081595A1] Packaging insert, intended for use in the packing of products to keep the products apart, which packaging insert (10) comprises a base part (1) having a substantially plane surface, on which base part (1) a number of partitions (4) are arranged, which partitions (4) are set out at a distance (X2) from one another along the base part (1) and in such a way that the partitions (4) extend up from the surface of the base part (1). A respective partition (4) is arranged with a first set of feet (3a) and a second set of feet (3b), by which feet (3a, 3b) the respective partition (4) is fastened to the base material (1), wherein the feet (3a, 3b) are constituted by a lower portion of the respective partition (4), which lower portion is folded in relation to the rest of the partition (4) in such a way that the first set of feet (3a) is folded in one direction and the second set of feet (3b) is folded in another direction, and wherein the respective first and second sets of feet (3a, 3b) are arranged in such a way that they can be folded both in one or the other direction.
