Abstract (en)  
[origin: WO2011084056A1] The invention relates to a build-in reservoir for an installation for flush water supply, such as for instance a flush basin or toilet bowl, which reservoir comprises: - a frame; - a container for flush water arranged in the frame with a water inlet and a water outlet; - an inspection opening arranged close to the top side of the reservoir, wherein the inspection opening is arranged partially in a side surface of the reservoir and partially in the upper surface of the reservoir, wherein the two parts of the inspection opening are mutually adjacent.
