Abstract (en)

[origin: WO2012051724A1] This device for a combination shower-WC has a shower function and a blow-dry function. The shower function and the blow-dry function are incorporated in an arm (1) which can be retracted and extended by means of a control and which comprises, within an inner pipe (4), firstly at least one water supply line (2) leading to at least one shower opening (5), and secondly at least one air supply line (3) leading to at least one blow-dry opening (6), wherein a closure means is provided on the inner pipe (4) and, in the position for operating the at least one shower opening (5) with water, said closure means is arranged over the at least one blow-dry opening (6) and, in the position for operating the at least one blow-dry opening (6) with air, the closure means is moved away from the at least one blow-dry opening (6).
