Abstract (en)
A refrigerator includes, in a lower rear part, a machine compartment (110) which contains a compressor (101), a condenser (124), and an air blower (141) that cools the compressor and the condenser, the refrigerator including: a base panel (160) on which the condenser, the air blower, and the compressor are mounted side by side in a left-right direction; a lateral rib (161) that is contact with the base panel and separates, in a front-rear direction, the machine compartment; a vertical rib (162) that is in contact with the base panel and separates the machine compartment in the left-right direction at a position ahead of the lateral rib; a bottom air inlet (163) that is on the condenser side and opens ahead of the lateral lib in a forward direction; and a bottom air outlet (164) on the compressor side.
