Abstract (en)

[origin: EP2058621A2] The device has a detachably mounted pressure container (3) for a non-lethal weapon at a vehicle by a holder (2), and an ejection nozzle (5) for the non-lethal weapon, which is connected with a pressure container by a controllable outlet valve (4). An actuating device is provided for the outlet valve. A control device (7) is arranged in the vehicle, and is connected with the actuating device by a plant controlled system.
