Abstract (en)
[origin: EP2524620A1] The nail polish mixing machine (1) comprises a mixing container (2), a control module (3) and two nail polish containers (5,5'), which have an outlet valve (6). An input and output unit is provided, which is connected to the control module. The input and output unit comprises a color palette with multiple continuously merging transition colors. Another input and output unit is provided, which shows the base color and an individual color. The nail polish mixing machine comprises a mixing unit (10), which has a stirring component (13).
