Abstract (en)  
A grinding wheel for machining (1) pieces is provided, wherein the grinding wheel (1) essentially comprises two parts (2,3). One of the parts is fixed and the other part (3) is detachable, in such a way that the detachable part (3) is universal and can be quickly replaced, being said detachable part (3) the one that comes into direct contact with the piece to be machined. On the other hand, the fixed part (2) is customised for the machine that is going to carry out the machining.
