Abstract (en)
[origin: WO2011088481A1] The invention relates to a retracting device (9) for moving a drawer (3) or for moving a rail (6) of a drawer pull-out guide (4) into the closed final position relative to a furniture body (2), comprising a housing (9a) having an orientation line (A), which is used to install the retracting device (9) horizontally on a furniture body (2), wherein a spring-loaded carrier (11) for applying force to the drawer (3) or to the rail (6) of the drawer pull-out guide (4) is supported in or on the housing (9a) so as to be movable at least in some sections along a linear travel path (12), wherein the carrier (11) can be detachably coupled to the drawer (3) or to the rail (5, 6) of the drawer pull-out guide (4), wherein the linear travel path (12) of the carrier (11) extends at angle to the orientation line (A) of the housing (9a).
