Abstract (en)

[origin: WO2011089359A1] The invention relates to a method for manufacturing an inner covering assembly (2) having multiple components for a vehicle including one first component (4) and at least one second component (6), said method including: supplying components (4, 6) of the inner covering assembly; an operation for attaching the first component (4) to a member (26) of a forming tool (24) of the inner covering assembly; inserting at least one second component (6) of the inner covering assembly into the forming tool (24); and an operation for securing by adhering the first and second components (4, 8) of the inner covering assembly by activating the forming tool in order to obtain the inner covering assembly (2) having multiple components.
