Abstract (en)

[origin: WO2011089089A1] The invention relates to a method for producing phyllosilicate discs having a high aspect ratio, to a phyllosilicate disc that can be obtained by means of the method according to the invention, to the use of phyllosilicate discs according to the invention for producing a composite material, to a flame protection barrier, or a diffusion barrier, and a composite material comprising or obtainable using phyllosilicate discs according to the invention.
