Abstract (en)

[origin: EP2526801A1] Safety helmet (1), particularly for motorcycle and/or motor racing, with improved device for moving the sun visor, comprising an outer cap (2) and an inner padding (3) internally associated with the outer cap (2) and wearable over the head of a user. More precisely, between the outer cap (2) and the inner padding (3) there is at least one interspace (4) that is provided at least at the front with an opening (5) and accommodates a sun visor (6) that can be extracted from the interspace (4) through the opening (5). The peculiarity of the invention consists in that the sun visor (6) is associated with the inner padding (3) so that it can rotate.
