Abstract (en)
[origin: EP2527135A1] The cycle press comprises several rows of press frames which are arranged in the longitudinal direction, an upper press plate (5) and a lower press plate (6). The press plates are supported on the press frames by the pressing cylinder (7). The insulation panels (23) are arranged between the piston (9) of the pressing cylinder and the press plates and are inserted into the cartridge holders (24) which are connected with each other.
