Abstract (en)
[origin: WO2011091972A1] The invention relates to a connection element for assembling a multi-pole power protection switch unit (100) from mutually overlapping protection switches (101, 101', 101'', 101'''), comprising a rail (10) spanning the switch knob (11) of the mutually overlapping protection switches (101, 101', 101'', 101'''), wherein the rail (10) has at least one guide bracket (12, 12') which is held in a pivoting manner on the housing (102) of one of the protection switches (101, 101', 101'', 101''').
