Abstract (en)

[origin: WO2011015672A1] The invention relates to a system and to a method for visualizing decors, particularly wood decors. The system is characterized by at least one image projector (1, 2, 3) and a spatial projection surface (4) comprising different partial surfaces (4.1, 4.2, 4.3, 4.4), wherein the at least one image projector (1, 2, 3) is provided with a control unit (5), which is designed such that different decors, which can be selected from a group of different decors using the control unit (5) can be visualized on the partial surfaces (4.1, 4.2, 4.3, 4.4) of the projection surface (4).
