Abstract (en)
[origin: WO2011095476A1] The invention relates to a pull-out guide (5) of a displaceable element (2) of an item of furniture or a household appliance (1), in particular a refrigerator, comprising guide rails (6) that can be mounted on the main body (4) of the household appliance (1), and a guide rail (8) that can be connected to the displaceable element (2), wherein the slide rail (2) is releasably attached to at least one supporting molded part (9, 10) provided on the main body (4) of the item of furniture or household appliance (1), and a component (11) supporting the pull-out and/or push-in displacement of the displaceable element (2), wherein the component (11) supporting the pull-out and/or push-in displacement of the displaceable element (2) is fastened on the molded part (10), above the slide rail (8), perpendicular to the pull-out direction (x).
