Abstract (en)

[origin: CA2789085A1] The invention relates to a tray for transporting and displaying items such as yoghurt cartons. The tray includes a bottom wall (1) and side walls (3 to 5) hingedly connected to the bottom wall and folded upwards at a substantially right angle, and at least one stacking lug (7) extending upwards away from the plane of a side wall, the tray being obtained by folding from a rectangular blank of corrugated cardboard. The tray is characterised in that the blank has a rectangular outline and in that the parts that form the lug (7) are included in said outline. The invention can be used to make trays for transporting yoghurt cartons.
