Abstract (en)

[origin: WO2011095237A1] The invention relates to a method for preparing and using digital pattern data, comprising the following steps: producing and/or collecting digital pattern data and digital surface structure data, storing the pattern data and surface structure data in a central database, providing the stored data in order to display patterns in combination with surface structures at locations distant from the location of the database, and producing wood material products and advertising materials provided with at least one pattern using the stored data.
