Abstract (en)

[origin: EP2532271A1] The table has a plate (10) and a set of feet (50, 50'), where one of the feet is a mobile foot. A connecting rod (80) is connected to the plate by a horizontal axis and to the foot by another horizontal axis. A set of ends (54) of the feet is turned toward the plate and the ground in one position. The foot is turned over by swiveling around the latter horizontal axis of the rod to adopt another position in which the ends are respectively turned toward the ground and the plate.
