Abstract (en)

[origin: WO2011098350A1] The invention relates to an elevating table (1) for the maintenance of household appliances, comprising a first frame (10) and a working platform (12) that is continuously height-adjustable in relation to the first frame (10). The invention improves said elevating table in such a way that a working plate (30) can be mounted on the top surface (13) of the working platform (12) in such a way that it directly connects thereto by extending in the plane thereof.
