Abstract (en)
[origin: WO2011098188A1] The present invention relates to an extinguishing agent, to a method for the production thereof, to a fire-fighting system comprising said extinguishing agent, and to a use of said extinguishing agent for fire fighting and fire prevention, in particular for lithium ion batteries. For this purpose, an extinguishing agent is prepared from a suspension which comprises at least water, a salt which is hardly soluble in water and comprises a cation of the elements calcium, magnesium, strontium and a water thickener. The invention further relates to a fire-fighting system comprising said extinguishing agent and to a use of the extinguishing agent of the above-mentioned type.
