Abstract (en)
[origin: EP2537730A1] The buffer or coupler (10) has a dosing device (20) for metered lubrication of respective impact surfaces (17). The dosing device has a lubricant dispenser (25) equipped with a connecting line (21). A through-hole (22) is provided in a buffer plate (15) or in a coupling plate, and is connected to a connection line in a transverse manner. A lubricant (23) is guided to the impact surface through the through-hole.
