Abstract (en)

The invention relates to a natural cellulose fiber fabric with anti-allergic properties, with role of bioactive / physical barrier against allergens and of passive suffering created by allergic responses in the skin / respiratory tract, to the composition of a finishing agent creator biocomposites coatings and to the processes for obtaining them concerning the improvement of the person lives having allergic problems (adults, but also an increasing number of children) using the plant extracts as Viola tricolor, Ocimum basilicum and Mentha piperita as well as some polimeric non-allergic synthetic materials with inherent properties of silanic type containing aminic group that potentiates the natural extract.
