Abstract (en)

[origin: EP2538007A2] The profile system (100) comprises a profile (1) with a groove (2) for mounting a fitting portion (3), and a fastening portion (4) that is protruded into the groove. The compensation elements (10) are positioned between the groove surface (12) and an approximately parallel surface of a fastening portion (5). The outer surfaces are provided directly or indirectly at the groove surface and the parallel surface of the fastening portion. The distance between mutually opposite outer surfaces of fastening portion is varied.
