Abstract (en)
[origin: EP2538127A2] The lantern (10) has two sidewalls (20) extending between a triangular lantern bottom (12) and a triangular lid (14). Sliding guides are respectively formed in the bottom and the lid. The sliding guides are facing each other. The side walls are displaced in the sliding guides. The sliding guides are designed as curved grooves (22, 24). The sidewalls are designed as curved glass plates. The sliding guides are formed corresponding to the radius of curvature of the sidewalls. The bottom and the lid are formed as single-piece cast parts. The bottom completely passes through a drain hole.
