Abstract (en)  
A magnetic lampshade frame assembly comprises: a frame device (10), including upper and lower frames (11,12); a hood device (30), including a hood (31), a connecting strip (32,33) separately formed at upper and lower positions of an internal side of the hood (31), and an external side of the connecting strip (32,33) being fixed to the hood (31), and an internal side of the connecting strip (32,33) being magnetically coupled to the upper frame (11) or the lower frame (12), and at least one of the connecting strip and the upper frame or at least one of the connecting strip and the lower frame is made of a magnetic material, so as to achieve the effects of saving the material of the lamp, assembling or disassembly a lampshade quickly and conveniently, avoiding damages of a lampshade, providing a secured connection between the hood and the frame, and improving the texture to enhance the added value of the lamp product.
