Abstract (en)
A jacket (1) for an exercise book or the like provides a main panel (2) for covering at least one front face, a back face and a rear face of an exercise book, which has a middle line (M) arranged at the rear face of the exercise book when the exercise book is associated with the jacket (1). The jacket (1) further provides first (3) and second (4) side panels which are overlapped and joined to the main panel (2) so as to define a first side pouch (5) and a second side pouch (6) suitable to receive a first page and a last page of the exercise book. In order to strengthen the jacket and being capable of customize the latter at low manufacturing cost a reinforcement central panel (7) is provided to be overlapped and joined to the main panel (2) at the middle line (M) and defining a central pouch (8) for an additional element (9) of the jacket (1) to be insertable or inserted therein.
