Abstract (en)

[origin: US2012285953A1] A packaging container has a lid (2) and a container (1) for keeping preferably hot, fillable foods, in particular food packaging made of plastic, having a tamper-evident closure, situated on a skirt (3) which extends next to a side wall (12), and which has a tamper-evident tab (6). The container (1) has a holding space which is delimited by the side wall (12), and the lid (2) which is designed as a clamp-on lid or snap-on lid being fixable at the top container edge, and the container (1) has an anti-twist lock (13) such that a plurality of the containers (1) may be fixed in a stack in the peripheral position before filling. At least one anti-twist lock (13) of the container (1) is formed by an offset which tapers downwardly in a side wall (12) in the direction of a contact surface (19), and which has two contact edges (35) in the circumferential direction.
