Abstract (en)
[origin: EP2541137A2] The box has a closed frame comprising three side pieces, a rear wall and a front wall, where the walls are made of stretchable material. A lamp is arranged at an end side of a socket. The lamp is supplied with electric current through an electronic ballast. A detachable cap (1) is slid on the socket and the ballast and made of plastic, and two-way insulated power lines are led from the cap. A V-shaped aperture is formed at a bottom side of a shoe-shaped profile. The bottom side rests against a washer that is engaged in a partial circular aperture. The cap exhibits a cuboid cross-section. The stretchable material is printable textile material.
