Abstract (en)
[origin: EP2541536A1] The panel has a rigid metal structure (2) comprising a glazed posting face (5) for displaying a posting. Support jambs (10) are mounted to move on the structure between a utilization position in which the jambs are adapted to receive a horizontal footbridge (11) for allowing an operator (12) to access the structure and a retracted position in which the jambs are retracted in the structure. The support jambs are suspended to the structure. The structure has vertical tubular guides, each comprising horizontal lower and upper cross-pieces (7, 9) and vertical lateral uprights (8).
