Abstract (en)
[origin: WO2011107702A1] The invention relates to a waste-collection container (10) which includes a waste-storage vessel (12), intended for being placed under the street, and a filling hatch (26) which is rotatably mobile relative to the vessel between a filling position, in which said hatch projects from an upper wall (18) of the vessel, and a retracted position, in which the hatch is placed inside the vessel.
